

Dr. Fikri J. Kuchuk, Schlumberger Fellow, is Chief Reservoir Engineer for Schlumberger Oilfield Services in Middle East and Asia. Before going to the Middle East, he was Senior Scientist and Program Manager at Schlumberger-Doll Research Center, Ridgefield, Connecticut, US. He was a consulting professor at the Petroleum Engineering Department of Stanford University from 1988 to 1994 and taught Advanced Well Testing. Before joining Schlumberger in 1982, he worked on reservoir performance and management for BP/Sohio Petroleum Company. He has an MS degree from the Technical University of Istanbul, and MS and Ph.D. degrees from Stanford University, California, all in petroleum engineering. Dr. Fikri Kuchuk is Society of Petroleum Engineers' Board Member
